Economy with Satisfaction!

The Slogan of the hour is Economy and Production. Both Dominion and Provincial Governments are urging economy in domestic life.

Economy does not mean paying less for an inferior article. Real economy is purchasing first-class goods at low prices.

The Thrifty housewife realises that she can buy cheaper and better when buying in bulk, and this is how we can help you to save money and at the same time give you better service.

We can, buy cheaper and we can buy better goods when we buy in bulk and therefore can sell Better Goods at Lower Prices, while you can test every article before purchasing.

A few of our Big Bulk Bargains:
Lard, Best quality - 25c. per lb.
Mustard Pickles - 25c. per pint
Black Tea - 3 lbs. \$1.00

Gifco Shortening

The latest, best & most economical aid to good cooking. TRY IT!

Recommended for Grade 5
Laure Henshaw and Nellie Plaster.

Grade 5 to Grade 6
Mary Rost, Alice Marquardt and Beale Bonner.

Grade 6 to Grade 7
Lillian Rost, Alice Hager, Katie Haver, Leslie Mills recommended for 1 month.

Reserve Your Rooms For Stampede

The citizens of Medicine Hat are making every effort to take care of the people who attend the Stampede and Agricultural Exhibition in that city on July 10th to 13th.

Intending visitors to the Hat for these events would do well to reserve their accommodations in advance. In the event of a reservation, notify the Stampede Secretary, G. W. McCafferty, Medicine Hat, of date, time and mode (train or car etc.) of your arrival and number of people in your party, giving number of women and children, if any. Be sure to state for which nights you will need rooms.

Rooms reserved for visitors arriving by train will be held half an hour after arrival of train notified. Room reserved for visitors coming by other modes of travel will be held until 9 p.m.

Bassano's Best!

Greatest Celebration In History of Town.

The unanimous verdict of Bassano's Girls Day is that it was the happiest, liveliest, and best day of Sport that has ever been staged in this portion of the Province.

Huge crowds thronged the town from early morning to the wee sma hours of the next day and people were very loath to leave the scene of such rivalry.

The only criticism which one heard was that there was so much doing all the time that it was difficult to choose which event to watch.

The attendance was estimated by different authorities at between three and four thousand, and in spite of the tremendous number of vehicles in town the day passed off without a single accident of any description.

The Committee is to be heartily congratulated upon the success which attended their work, and we are confident that in expressing the thanks of both town and country people to them, for the enjoyment which they gave to all we shall be voicing the opinion of everyone.

The results of the Sports are as follows:

Quality in the Right Place

Expensive upholstery doesn't prove that a car excels in quality. The real quality of a car is determined by its chassis—its power plant, transmission, axles, etc.

Both by laboratory tests and actual service tests, the different parts composing the Ford chassis have proven themselves superior to those used in other cars. Ford Vanadium steel has never been surpassed in quality and strength.

Average Increase - 100%	

This Phenomenal Increase

in the volume of business done by PIERCE & CURRIE, LIMITED. The Hardware and Harness Headquarters of the District.

Is something for a Firm To be very Proud of!

But
There
is a
Reason

Having increased the capitalization at the time of the incorporation of the company, we now deal with the large markets for Hardware and Harness, and accordingly are giving the Public (Farmers in particular) the benefit of Lowest Market Prices. The public having realised this fact is the reason we are able to show such a remarkable increase in the volume of business as recited above.

If it is anything in the following Lines that you Require, we have it, or if by chance we are out of same, we will get it for you on shortest notice, as Prompt Service is a hobby with us. GENERAL HARDWARE, PAINTS, HARNESS, STOVES, TRACTION ENGINES (I. H. C. Products), MOTOR CARS, (Overland and Dodge).

Pierce & Currie, Limited.

Save Your Gasoline

The numerous voluntary letters from McLaughlin owners in all parts of Canada furnish proof as to the economy of gasoline consumption of the McLaughlin valve-in-head motor.

A McLaughlin owner in Toronto (name on request) who owns a D-4-35 reports over 27 miles to the gallon of gasoline.

Many owners of our Model D-6-35 get 25 miles and more to the gallon.

A Maritime owner of a D-4-45 (name on request) gets over 30 miles to the gallon over hilly roads, which is 50% more than most motors of other makes developing the same horse

power and torque as much as some. The satisfactory gasoline mileage of McLaughlin motors is due to the valve-in-head principle of motor construction. This principle—right in the beginning—has been perfected during eight successive years of successful manufacturing experience.

Today the McLaughlin valve-in-head motor is unrivalled for POWER ECONOMY and EFFICIENCY.

In McLaughlin Motor Cars all parts have been developed and perfected to the same high standard of efficiency and mechanical excellence as the valve-in-head motor.

Known as E. G. ALLEN.

The Appeal to Canada.

There is a greater call today upon Canada's manhood than even the call to service and that is the call to produce. There is no medical examination to pass should war end before 1918 Canada's crop and neither is their any age limit. Everyone who is able should make it their first duty

to prepare for greater onslaughts upon Canada's granary than we have ever been called to meet before. One more acre summer-fallowed this year means about ten bushels more wheat next and if we multiply that total by the millions of acres which could and should be plowed this year and then compare that total with the demand which will be made we shall soon realize how urgent and necessary is this latest call upon Canada.

So far the Greater Production campaign of 1917 has been justified, and the National Service Committee are entering upon another campaign for 1918. Their slogan is get in shape for greater production by summer-fallowing every inch of land possible.

They are pointing to the fact that even should war end before 1918 Canada's crop will still be perhaps the great bar between starvation and sufficiency.

Great Sugar Sale For Cash!

Here is YOUR Chance to Save Real Money.

We have just purchased one Carload of Sugar (thirty tons), Roger's Pure B.C. Cane---same as you have always bought.

By buying a straight car-load we save the freight, and we are giving you the advantage.

Here are our Prices:

20 lb. Sack - \$1.95

Usual Price - \$2.20.

100 lb. Sack - \$9.70

Usual Price - \$10.75.

The Sugar market is very firm; the preserving season is almost here; if you compare this price with those of the Calgary stores you will see that this is a REAL BARGAIN.

Stock Up. Sugar will not be Cheaper.

McKEE - THE GROCER

BUY AN IRRIGATED FARM

From the Canadian Pacific Railway

BECAUSE

Irrigation makes the farmer independent of rainfall, and insures good crops, not occasionally, but EVERY YEAR.

Irrigation makes possible the successful culture of alfalfa, the King of alfalfa, which insures good returns in dairying and mixed farming.

Irrigation means live stock farming and close settlement, with all the advantages of densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the years that it has been tried having abundantly demonstrated its success wherever intelligently applied.

This is the most liberal offer of irrigated farm land on record.

For full particulars, apply to

Allan Cameron, General Supt. of Lands
Canadian Pacific Railway, Department of Natural Resources

928 First Street East, Calgary, Alberta.

You can buy irrigated land from the Canadian Pacific Railway at prices up to \$50 PER ACRE, with twenty years to pay and the privilege of a loan of \$2,000 for improvements (8% interest); no principal after first payment until end of fourth year, reduced interest if settlement conditions are complied with, and no water rental for first year.

Contract can be paid off before maturity if desired.

Dominion Day Ball Tournament

Comet Cop the Bacon.

Chas. Clark called the first baseball game which was Bassano vs. Gem Colony. The Gem boys went to bat first but found that Pinner, our pitcher was just a little harder to hit than anything that they had run up against so far this year, and three men faced Pen in the first half. The game went only six innings and the score stood 8-0 in favor of the home team. The Gem team played good ball as a whole and Burrows, pitcher, was in excellent form. For Bassano there were no startling plays as the boys were all in good form and played tight ball.

The second game of the day was played between the Boys from across the river and the Gleichen creek team. Comet got away to a good start and maintained their lead throughout the game. Things did not go well for the city Boys as Big Mac was out of form, with a wounded wing and had to leave the game in the second inning. The Homesteaders were the surprise of the day and had they played a little tighter ball there would have been a far greater difference in the final

score, at the finish the score stood 7-6 in favor of the river men.

In the last game of the day Bassano got away to a good start and it looked as though there was to be a walk over, but anyone thinking that was on the wrong track as the Comet boys were not at all dead, and in the fourth inning squeezed over six runs, making the score 9-8. Both teams worked very hard but the Comet boys were there all the times in the pinches and the final score was 11-10 in favor of the Farmers.

All the boys on the Comet team played real good ball and the Fans out there should be proud of the way the boys played. The Comet Ball team was very ably assisted by the Hutton sports who donated the two Oederkirk boys and Hutton; R. Oederkirk was the man whom they can thank for their victory against Gleichen in the morning. While V. Oederkirk and the day and had they played a little tighter ball there would have been a far greater difference in the final

GALATHEAVILLE.

Harry Billow received a telegram from Stephen Hahn, stating his mother was not expected to live, for him and other children to come at once. W. T. Billow, Harry Billow and their sister Mrs. Fred Galathea left at once for this place to be at their mother's bedside.

Henry, Don and Pete Galathea have been riding across the river looking after their cattle. They report stock looking fine. The Canadian crew were also riding after their herd.

W. L. Billow and Duane McKinnis made a business trip to Bassano last Saturday, returning home Sunday.

Fred Galathea motored into Bassano for some repairs for his gas tractor.

There has been big showers all around this neighborhood, and it is hoped that the rain will soon result here.

Mr. and Mrs. Wm. of Comberville, came through here, on their way home from Bassano.

Quits a few expect to take in the big collection in Bassano this year. A big time is expected by all.

Ferriman Lee has hired Bill Karry to run the ferry while he is in town for a few days vacation.

Tom Evans has sold his big bunch of cattle and horses and moved to Bassano to retire.

Order your Raspberries direct from The Lomax Fruit Farm, Hatzie B. C. \$2.00 per crate with order. Refers to Bank of Commerce, Mission Junction, B. C.

PANDORA

The weather during the past week has been cooler and some rain has fallen, but a good soaking rain is needed, if we are to have much of a crop this year. The dry weather of a week or 10 days ago caused quite a little of the grain to turn yellow, and even were weather conditions for the next two months of the best for grain growing, the yield would be considerably less than it has been for the past two years.

Owing to the lack of moisture breaking and in fact summer-fallowing is almost impossible. As a consequence the farmers of the district will not be able to get the acreage plowed up which they would have had plowed had the usual June rains visited us.

B. G. Hargrave was a visitor to the district for a week or ten days. He was out trying to sell oil, and some, and was away with a few hundred dollars in his pocket.

The stock visited at the home of Mr. and Mrs. Don Harris three weeks ago, and the family has been increased by the addition of a fine baby girl.

Pandora and Huston baseball teams met in a baseball game on the ground of the first annual crop last Sunday, and Huston retired winners by a score of 14-9. Pandora has been handicapped in their last few games, through not having a regular pitcher. There is some talk of Robt. of Comet pitching for Pandora, and should he join the Pandora bunch they will be a team to be reckoned with.

Pandora C. F. A. held a dinner in the Agricultural Hall at Pandora on the 10th inst. A good crowd turned out, estimated in the neighborhood of 250 persons, and something like 40 or 50 dollars was cleared from the venture. From the time the Agricultural Society was formed the social side of the C. F. A. work has been handled by our local C. F. A. A. of fair, consequently there is nothing to hold the members together excepting co-operative buying, which is not made use of as it might be.

The carload of Cedar posts the Pandora local ordered in March arrived in Millen 10 days or so ago.

Within the past two weeks the Ford dealer in Millen brought out two Ford Cars, which had been purchased from him by residents of the district.

Eve Snodgrass has built an up-to-date blacksmith shop up in her father's land, and is ready to do all kinds of blacksmith work, including horse shoeing. His shop is located four miles west of Pandora.

A new school district has been formed, taking in the north east 1/4 of T. 24, R. 19 and the N. 24, 1/4 of T. 25, R. 19.

The veterans at Bassano are making arrangements to decide to go ahead with the district, and to construct a good sized schoolhouse this Fall.

Misses Halmer Olsen, Harry Treat and E. J. Neeson were elected Trustees. The schoolhouse will be built on the S. 1/4 of section 3, T. 25, R. 19.

In connection with the regular religious services at Pandora every Sunday, a new hymn book is being given away. "What Happened to Jones." The proceeds of the play will go towards paying for the organ and hymn books for the choir. We understand Walter Bradshaw is to take the star turn and to play the part of the "Hill Washer."

Order your Raspberries direct from The Lomax Fruit Farm, Hatzie B. C. \$2.00 per crate with order. Refers to Bank of Commerce, Mission Junction, B. C.

PROTECTION OF CROPS

Crop protection means crop production. Canada loses over one hundred million dollars worth of her staple crops every year through the depredations of insect pests. A large portion of this loss could be prevented, if we cannot afford to lose the smallest portion of our grain and other food crops during the present critical period when the production of food is of supreme importance, the Dominion Department of Agriculture is making every effort to prevent, so far as possible losses due to insect pests. Crop protection must go hand in hand with crop production.

Insect pests are not usually noticed or reported until they have caused considerable damage. Therefore it is urged that the closest watch be kept on all crops for the first appearance of any insect pests or damage. Immediately such damage is observed steps should be taken to control the outbreak in its incipient stage. If the pest or the method of control is unknown specimens of the insects and its injuries should be sent at once to the nearest of the following sources of expert assistance: The Agricultural College, the Provincial Department of Agriculture or their local District Representatives, the officer in charge of the nearest Dominion Entomological Station, or direct to the Dominion Entomologist, Department of Agriculture, Ottawa, for examination; and advice in regard to control measures will be furnished without delay. Letters and packages up to 11 ounces in weight may be mailed to the Dominion Entomologist, "Free," but postage will be required on letters or specimens sent to the other sources of advice mentioned.

Do not delay reporting insect outbreaks or sending inquiries; delay may involve serious losses that could otherwise be prevented. Write immediately, or telegraph if the outbreak is serious. Do not fear the sending of vigorous growth in young plants and good cultivation are the best protective measures against insect attack. Keep all crops constantly under a supervision for the first appearance of any damage in order that it may be checked without delay. Increased crop production involves increased protection against pests.

THE TOWN OF BASSANO, ALBERTA

(Corrected Notice)
In the matter of the Confirmation of the Tax Enforcement Return of the Town of Bassano.

Take notice that the Tax Enforcement Return of the Town of Bassano for the year 1917 will be submitted for Confirmation to the presiding Judge of the District Court of the District of Calgary, judicial District of Bassano at a special sitting of the said Court to be held at the Town of Bassano on Saturday, July 21st, 1917 at 10 o'clock a. m. Dated at Bassano, Alberta, this 30th day of May, A. D. 1917.

Geo. R. B. Bond,
Secretary-Treasurer, Town of Bassano.

is paved with good intentions;

but the road to Business Success

Is Paved with Consistent Advertising!

MR. BUSINESS MAN IT'S UP TO YOU!

If you want to secure new business if you want to hold the business you have already acquired; if you want to see Bassano making its way city-wards, you must realise first, last and all the time that you can only achieve your object by consistent advertising.

It's no good building a store and fitting it up to please prospective customers if they do not come to your store. Interest them in your Stock by showing your leading lines week by week. Meet your Mail-Order Competitors on their own grounds --- Advertising.

Make the "Mail" your Store Windows.

We shall be pleased to assist you in Preparing for your Fall Campaign.

A Powerful Bomb

Test Shows New Bomb to Be Most Terrible Ever Invented

The most terrible of all bombs, the invention of the new device, which was shown recently to a curious house of representatives in the Canadian House of Commons, is a subject of much discussion in the military and navy circles.

Mr. Tupper said tests had demonstrated the bomb to be the most effective against the ground, and the matter from which it was exploded, it was exploded horizontally and vertically.

"The bomb explodes horizontally and vertically," said Mr. Tupper, "and it is very effective in every direction. The model I have here is only on land; if it strikes water it does not work."

They said in the official test that the bomb, dropped vertically from 300 feet around it. The object took place in a bomb-proof building, from where it exploded, and the bombproof was struck by a mass of fragments and shrapnel, and the bombproof at terrible velocity.

The Pill That Leads Them All—Fills are the most portable and common of all medicines, and with ease and safety can be taken in any form. They are the most popular of all pills they must fill the body with a powerful and compounded compound of ingredients, the digestive organs, there is no more medicine to be had, any.

"Auntie, did you ever have a love affair?"

"No, child."

"Need a romance?"

"No. The nearest I ever came to it was in a romance novel, but I never went through a matchmaker."

Counter Check

Or Sales Books

Mr. Merchant—

If you are not already using our Counter Check or Sales Books we

recommend you to get them at once.

Years of experience in the

business of counter check and sales books have proved to you that

your book is a very perfect as

possible to be made in these difficult

times.

All classes and grades of paper are

available in this book, and you can

then use them for two years ago.

Books, labor, in fact everything that

goes into the cost of counter check

and sales books are very high in price.

Notwithstanding these facts, our

particular work enables us to

offer you a book at a price which is

very low.

EGYPTIAN LINIMENT

(Give Sample on Request)

Was a Tuberculosis Cure

Outdoor Life of Solidary Results in

Remarkable Cures

Some months ago the British medical

Journal told remarkable tales of

recovery from tuberculosis made by

the use of the Egyptian Liniment.

It is interesting to read the opinions

expressed at the New York Academy

of Medicine that tubercular persons

seriously affected, need not

expect to be exempt from convalescence

on account of physical disability.

Sir William Osler was quoted to

the effect that any life other than

in a complete cure of tuberculosis.

Tuberculosis is a dangerous disease

because it follows man's stupid habit

of shutting himself off with

glass and walls from fresh air and

sunshine. In protecting himself from

the elements, he has only made his

disease worse, and he has only

increased his resistance to his

bacterial enemies, until consumption

has become a chronic disease.

It is relieving us of any artificial

elements. Hence the recovery—

and otherwise favorable conditions—

the recovery of the patient is

the result of the recovery of the

elements of the patient.

War is entitled to whatever credit

it is entitled to, and it is entitled to

the credit of the recovery of the

elements of the patient.

The military profession is far

more dangerous for a person with a

chronic disease than it is for a

person with a healthy body.

It is to be as healthful as war—

Germany Certain

Food Will Last

Public Feeling on "Air-tight Basis"

After New Conference

It is officially stated that the

conference between the President

and the heads of the various

government departments, it was

decided that there was complete

assurance of the food supply of

the country for the remainder of

this year and until the conclusion

of the conference. The conference

was held in the presence of the

interior and all problems

connected with the matter of

feeding were thoroughly discussed.

The conference formulated

regulations for the crop year of 1917-18

and considered all possibilities

of food distribution. Their

conclusions were

reached after a complete

series of existing conditions.

What has happened to the rest of Bassano's generous citizens? It might be as well to remind our people that Belgium is still dependent upon the generosity of our Allies for sustenance.

NATIONAL SERVICE

Dear Sir,

The splendid efforts of the farmers of Western Canada to increase the food supply in this critical time is greatly appreciated by our Empire.

Since the war commenced the production of food has fallen far behind its consumption. The food shortage is world wide. It is certain that their will be a greater scarcity in the year 1918.

The Allies of Canada, of our Empire and her Allies look particularly to the farmers of Western Canada for the food that they must have to bring the war to a victorious conclusion.

Prepare for larger crops in 1918. I urge upon every farmer in the Province of Alberta the necessity of breaking and preparing for crop every possible acre of land, before harvest.

Every summer fallow should be well prepared for a big 1918 crop.

The duty of Canada to the Empire and her Allies is to produce wheat—and still more wheat.

I request the Federation of the U. F. A. Locals and of all other organizations, and men to whom this letter is sent, to call meetings and urge upon the farmers in their locality the necessity of greatly increasing production in 1918.

Yours faithfully,
A. C. BURNHAM,
Director of National Service.

SAVINGS CERTIFICATES

The Deputy Provincial Treasurer, Edmonton, reports that Provincial Savings Certificates are meeting with a splendid reception from the public. Under this plan one may deposit like savings and be sure of receiving a good interest rate with the solid security of the Government behind it. There has been a steady flow of deposits into the Provincial Treasury, the amounts received from individual investors varying from \$5.00 to some representing a modest fortune. The average daily receipts continue to increase in amount as time goes on, evidencing the growing popularity of the idea. As the Savings Certificates Act was intended originally for the benefit of residents of the Province of Alberta, deposits from outside the Province were hardly looked for but considerable sums have been received from neighboring Provinces. The advantage of obtaining 5% and of being able to withdraw the deposit on demand without any unnecessary inquiry naturally appeals to investors, especially when interest is allowed for the full time the money remains on deposit, however short it may be. Another attractive feature is the option of having interest compounded half-yearly, or if preferred, of having it forwarded yearly or half-yearly.

CHURCH NOTES

Servants at the Presbyterian Church on Sunday at 11 a.m. and 7:30 p.m. The evening subject will be "The Vision of the Lord's Supper" will be administered. All members are expected to attend. In the Scotch Presbyterian Church a very salutary custom is still observed. After non-attendance at three consecutive Communications the members are waited on by the Session, and if no satisfactory explanation of such absence is given, the names of such absentees are removed from the Communion Roll. This tends to produce an appreciation of the privilege and responsibility of membership in Christ's Church which many of our members would do well to possess.

At Liberty School house on Sunday at 2:30 p.m. a special musical service will be held to celebrate the purchase of the new organ. All Marjoville residents invited.
